3.7V Lithium Ion Battery Cell Mechanical Mod 18650 Battery 2100mAh 50A

Basic Information

Place of Origin: China

• Certification: UN38,3/CNAS/KC

enook

Model Number: 18650Minimum Order 200

Quantity:

• Brand Name:

• Price: US(1.8~3)

• Payment Terms: T/T, Western Union

Product Specification

• Storage Temperature: -20 ~45

• Continuous Discharge 50A

Rate:

Weight: 50gVoltage: 3.7VCapacity: 2100mAhType: Flat Top

Battery Type: Cylindrical

• Application: Home Appliances, BOATS, SUBMARINES,

Electric Folklifts, Uninterruptible Power

Supplies

• Highlight: Lithium Ion Battery Cell 2100mAh,

Lithium Ion Battery Cell 50A, Mechanical Mod 18650 Battery

Product Description:

18650 Battery

18650 Battery is a popular cylindrical rechargeable lithium ion battery, providing excellent protection against overcharge, overdischarge and short circuit. This battery has a nominal voltage of 3.7V and a high capacity of 2100mAh, which can provide a longer lasting power supply to a variety of devices.

The 18650 Battery is ideal for applications that require a reliable and long-lasting power source. It has a high capacity of 2100mAh. With its high energy density, it can provide more power than other similar batteries. Additionally, its high temperature resistance and long service life make it a great choice for applications in a variety of harsh environments.

The 18650 Battery is an excellent choice for those looking for a reliable and powerful power source. With its high capacity, long service life, and excellent protection, it is an ideal choice for many applications. Whether you need a long-lasting power source for your electronics or a reliable power source for your vehicle, the 18650 Battery is the perfect solution.

Features:

Product Name: 18650 Battery

Voltage: 3.7V

Operating Temperature: -20 ~60

Type: **18650 Battery** Capacity: 21**00mAh** Material: **Li-ion**

Special Feature: Factory Price

Technical Parameters:

Property	Details
Max Discharge Current	10A
Capacity	2100mAh
Operating Temperature	-20 ~60
Туре	18650 Battery
Size	18.1mm X 65.2mm
Max Charge Current	2A
Material	Li-ion
Certification	CE.Rosh
Protection	Overcharge, Overdischarge, Short Circuit
Weight	50g
Factory Price	Yes
Rechargeable	Yes
Capacity	2100mAh
Long Lasting	Yes

Applications:

The enook 18650 Battery offers 3.7V with a capacity of 2100mAh and a maximum operating temperature of 60°C. It is a factory-priced product that offers exceptional performance for a wide range of applications. Its compact size of 18.1mm x 65.2mm allows for easy installation and its overcharge, overdischarge, and short circuit protection features ensure safety. The enook 18650 Battery is an ideal choice for powering devices like flashlights, medical equipment, power tools, and more. With a storage temperature range of -20°C to

Support and Services:

18650 Battery Technical Support and Service

We offer comprehensive technical support and service for our 18650 Batteries. Our team of knowledgeable professionals are available to answer your questions and provide you with the technical information you need. From installation and troubleshooting to product performance and maintenance, we are here to help.

Company Introduction

Company Introduction

ShenZhen Enook Technology Co., Ltd company is professional manufacturer and supplier of lithium energy solutions, E-bike battery pack, which focus on manufacturing and designing of lithium cells and battery packs

Quality first is our principle, Satisfying all our customers is our tenet, win-win business is our aim. Dedicated to strict quality control and thoughtful customer service, our experienced staff members are always available to discuss each detailed requirements from customer and ensure full customer satisfaction.

In addition, we have obtained certificates. MSDS UN38.3 MSDS,ROHS,UL.ect. All our products keep selling wellnot only around China, but also inUSA, Philippines, Germany, England, Australia, Russia, France and other Europen and Asia countries

Fast delivery is one of our advantage, selecting a current products from catalogue, or customized products, 3⁻⁵ days is the normal time to prepare for the goods, OEM & ODM orders can be acceptable.

Quality is our life, price is our core competence, please don't hesitate to contact us if you have any requirement, we'll provide our best service to you.

Has passed CE certification and ROSH certification, excellent quality the company has obtained a number of patented technologies.

Packing and Shipping:

Packaging and Shipping

18650 batteries must be packaged with extreme care. Each battery must be individually wrapped in an insulated material designed to prevent shorts. The entire package must be placed in a static-resistant bag or box before being shipped. Batteries must never be shipped in bulk or loose without proper packaging.

Batteries should always be shipped via a tracked courier such as FedEx or UPS. The courier should be notified of the battery shipment and the package must be labeled as containing hazardous materials. The package should also be marked with the proper shipping class, such as Class 8, for lithium batteries.

Professional suggestion to choose the best shipping delivery (Such as EMS DHL TNT UPS and FEDEX) for your commodities according to your demand.

FAQ:

Q1:When are you available?

A1: 24 hours online every day, messages will be replied once received.

O2.What's your main products?

A2:Lithium battery, Lipo battery, LiFePO4 battery, battery packs, etc. For cylinder battery.

Q3:How is the quality of the products?

A3: 1. Always provide the premium authentic products, never fake.

2.Only provide A Grade cells

Q4: Do you provide the OEM&ODM service?

A4: Yes, we are experienced factory can provide OEM & ODM services.

Q5: How do we place an order?

A5: Step1. Contact us

Step2. Confirm products you need, the price and other

details

Step3: We make PI(Proforma Invoice) for you to make

payment

Step4: Payment finished

Step5: Payment checking by our accountant

Step5: Products packed and shipped (tracking number

will be provided once shipped out)

Step6: Customer get the products and feedback

Q6: What's the lead time?

A6: 1. Sample orders: 1-3 working days

2. Bulk orders: 3-7 working days according to different

quantities

3. OEM: 7-12 working days on receipt of sample

confirmation
