

Lifepo4 battery 12v 18ah 48v 18ah 50ah 100ah 150ah 200ah 300ah Rechargeable lithium-ion battery

Our Product Introduction

for more products please visit us on enookbattery.com

Basic Information

- Place of Origin: china
- Brand Name: Enook
- Model Number: Enook Battery Pack
- Payment Terms: TT PAYPAL

Product Specification

- Product Name: Enook Battery Pack
- Size: 255*165*215mm
- OEM/ODM: Acceptable
- Working Altitude: ≤2500m
- Operating Temperature: -10 ~+50°C
- Standard Voltage: 12.8V
- Installation: IP65
- Specification: 12V50AH
- Highlight: Customized Voltage Lithium Ion Battery Pack ,
12.8V Lithium Ion Battery Pack ,
IP65 Lithium Ion Battery Pack

Product Description

Product Description:

The battery pack is built with high-quality lithium-ion cells that guarantee long-lasting performance, durability, and safety. It has a cycle life of 3000-6000 Cycles @ DOD80%/25degree/0.5C, which means it can withstand numerous charging and discharging cycles without losing its capacity. Additionally, it's designed to operate within -10 ~+50°C, ensuring flexibility in different weather conditions.

The Lithium Ion Battery Pack is ideal for electric bike owners who require a 48v 60v 72v 40ah battery pack. It provides enough power to keep your bike running smoothly and efficiently. It's also suitable for other applications that require a reliable and high-capacity energy source.

With a working altitude of $\leq 2500\text{m}$, this battery pack is suitable for use in a wide range of environments. Whether you're cycling in the mountains or traveling in high-altitude areas, you can trust this battery pack to deliver the power you need.

In conclusion, the Lithium Ion Battery Pack is a high-quality energy source that offers reliability, durability, and safety. It's an excellent choice for electric bike owners who require a 48v 60v 72v 40ah battery pack. With a capacity of 640Wh and a cycle life of up to 6000 cycles, this battery pack is a worthy investment for anyone who values performance and longevity.

Brand Name	enook
Model Number	Lifepo4 Lithium Battery Packs
Battery Size	18650
Place of Origin	China
Weight	Customized
The charging ratio	50C
The discharge rate	100
Nominal Voltage	12V
OEM/ODM	Accepatable
Nominal Capacity	5Ah
Color	Black
Type	Li-Ion/lithium/lifepo4
Brand	OEM Customized
Weight	0.9KG
Features	High Power Density
Keywords	Lithium Ion /lifepo4 Battery Pack
Applcation	E-motorcycle

PRODUCT PARAMETERS

12V: 50AH/100AH/150AH/200AH/300AH

24V: 50AH/100AH/200AH

Features:

Product Name: Enook Battery Pack

Specification: 12V50AH

Installation: IP65

OEM/ODM: Acceptable

Net weight: 9KG

Application: Lithium Ion Electric Bike Battery Pack

Voltage Options: 48V, 60V, 72V

Capacity: 40AH

24V SERIES

50Ah/100Ah/200Ah

Applications:

One of the primary uses of Enook Battery Pack is as a lithium-ion electric bike battery pack. Its high capacity of 640Wh and standard voltage of 12.8V make it suitable for powering electric bikes for long distances. It can also be used as a backup power source for electric bikes in case of power outages or emergencies.

Enook Battery Pack is also suitable for use in other electric vehicles, including electric scooters, electric motorcycles, and electric cars. It can be connected in series or parallel to achieve a voltage of 48V, 60V, or 72V, depending on the application requirements. Its high capacity of 640Wh ensures long driving distances and efficient power output.

In addition to electric vehicles, Enook Battery Pack is also suitable for solar energy storage. It can be installed as a backup power source for solar systems, ensuring a stable power supply even during power outages or when solar energy is not available. Its installation rating of IP65 ensures that it is protected from dust, water, and other environmental factors.

Enook Battery Pack can also be used as a UPS power supply. It provides stable power output, ensuring that critical equipment remains operational during power outages. Its working altitude of $\leq 2500\text{m}$ makes it suitable for use in various locations, including high altitude areas.

Enook Battery Pack is available with payment terms of TT and PayPal. Its model number is Enook Battery Pack, and it is manufactured in China. Its high capacity of 640Wh and standard voltage of 12.8V make it suitable for various applications, including as a lithium-ion electric bike battery pack, 48v 60v 72v 40ah battery pack, and backup power source for solar systems and UPS power supply.

Customization:

Customize your Enook Battery Pack to fit your specific needs with our product customization services. Choose from a variety of voltage/capacity options including 48v, 60v, and 72v 40ah battery packs for your lithium ion electric bike. Our products are made in China and come with natural cooling capabilities to ensure optimal performance in operating temperatures ranging from -10 ~+50°C. We accept payment terms of TT and PayPal. The net weight of our battery packs is 9KG and we guarantee a working humidity of 65+-20%RH. Trust Enook for reliable and customizable lithium ion electric bike battery packs.

PRODUCT COMPOSITION

Support and Services:

The Lithium Ion Battery Pack is a high-quality product designed to provide reliable power to various devices. Our technical support team is available to assist with any questions or issues you may have regarding the use of this product.

We offer a range of services to ensure that your Lithium Ion Battery Pack is operating at its best. This includes diagnostic testing, repair services, and product upgrades. Our team of experts is dedicated to ensuring that you have the best possible experience with our product.

Should you require technical support or services for your Lithium Ion Battery Pack, please do not hesitate to contact us. We are committed to providing timely and effective solutions to all of our customers.

Packing and Shipping:

Product Packaging:

1 Lithium Ion Battery Pack

User Manual

Shipping:

Ships only within the United States

Shipped via ground shipping

Shipping cost included in product price
