Basic Information

- Place of Origin: China
- Brand Name: enook
- Certification: CE ROHS FCC UN38 .3 MSDS
- Model Number: Golf Cart Battery

Product Specification

- Voltage/Capacity: 36V、48V、51.2V、72V
- Weight: Approx.44.7kg
- Charge Voltage: 58.4V
- Cycle Life: >4000 Cycles
- Warranty: 10 Year
- Cut-Off Voltage: 40V
- Product Name: Golf Cart Battery
- Size: 472*334*243mm
- Highlight: Golf Cart Lithium Ion Batteries Pack ,

Product Description

Product Description:

The Golf Cart Battery is a compact and lightweight battery, measuring 472*334*243mm and weighing approximately 44.7kg. This makes it easy to install and handle, even for those with limited experience working with batteries. Additionally, the Golf Cart Battery features BT Monitoring, GPS Display, and Heating Optional, which provides users with real-time information about the battery's performance and status.

The Golf Cart Battery has a cut-off voltage of 40V, which helps to protect the battery from over-discharging and prolongs its lifespan. With a capacity of 4.0~40.0kg, this battery can provide reliable power to your golf cart for extended periods of time, even in demanding conditions. Whether you're using your golf cart for recreation or for work, the Golf Cart Battery is designed to meet your needs and provide you with the power you need to get the job done.

Overall, the Golf Cart Battery is an excellent choice for anyone looking for a high-quality, reliable battery for their golf cart. Made from Lithium Iron Phosphate, this battery is built to last and can provide you with years of reliable service. With its compact size, lightweight design, and advanced features like BT Monitoring, GPS Display, and Heating Optional, the Golf Cart Battery is the perfect choice for anyone who demands the best from their battery.

Applications:

The enook Golf Cart Battery is specifically designed for golf carts and is perfect for powering your golf cart through the course. Whether you're playing a quick 9 holes or a full 18, this battery pack will provide the power you need to get around the course with ease.

The enook Golf Cart Battery is also perfect for those who use their golf carts for other purposes beyond just playing golf. For example, if you use your golf cart to get around your property or to run errands in your neighborhood, this battery pack will give you the power you need to get where you need to go.

With a weight of approximately 44.7kg, this battery pack is easy to install and can be used in a variety of different golf cart models. Additionally, this battery pack has a voltage of 72v, making it a powerful and reliable source of energy for your golf cart.

In conclusion, if you're looking for a high-quality Lithium Iron Phosphate battery pack for your golf cart, the enook Golf Cart Battery is an excellent choice. With its long-lasting power, reliable performance, and easy installation, this battery pack is perfect for golf cart enthusiasts who want the best for their vehicles.
